

# WATER YOU CAN COUNT ON FROM A COMPANY YOU CAN TRUST

Great Tasting Water is an Essential Part of our Service

EV9600-00

## 4C Cartridge

Delivers premium quality water for cold cup vending applications

Ensures great tasting beverages. A unique filter blend using activated carbon reduces chlorine taste and odor and other offensive contaminants to produce quality ingredient water

No more 40 lb. bottles to lift, break, lose, store, clean, pay deposits on and re-order

Quality of product water always remains uniform. Pressure fluctuations never cause "dumping" of accumulated dirt trapped by the filter

Precoat submicron technology reduces dirt and particles as small as 1/2 micron in size

Possible health contaminants are reduced. Asbestos fibers and other cysts, such as Cryptosporidium and Giardia, are mechanically filtered out of incoming water

Precoat filters do not remove fluoride

We've teamed this filter with:

Have great tasting coffee wherever you need it with a Newco automatic brewer.

Bunn, the mark of quality in airport brewers and beverage equipment worldwide.

Kool Tek's floor model features state of the art technology.

# EVERPURE®

EV9600-00

## 4C Cartridge

Delivers premium quality water for cold cup vending applications

### Specific substances removed or reduced:

- Chlorine taste and odor 95.7%
- Fishy, musty, earthy tastes and odors 95.7%
- Particles 0.5 - 1 mm 99.9%
- Turbidity 99.3%
- Asbestos fibers 99.86%
- Entamoeba histolytica cysts 99.99%
- Giardia lamblia cysts 99.99%
- Cryptosporidium parvum cysts 99.99%
- Oxidized iron particles 99+%
- Oxidized sulfur particles 99+%
- Oxidized manganese particles 99+%

The contaminants or other substances removed or reduced by this water treatment system are not necessarily in your water. Check for compliance with state and local laws and regulations. Do not use with water that is microbiologically unsafe, or of unknown quality without adequate disinfection before or after the system. Systems certified for cyst reduction may be used on disinfected waters that may contain filterable cysts.

## WHO WE ARE.

We Are Water. Everpure is the Vending & OCS industry's most recognized brand in water treatment and services. Since 1933, more businesses have relied on us for quality, performance and immediate results. Our commitment to our customers' success is what drives us to consistently deliver better water to people everywhere.

Everpure offers a total scope of water treatment technologies, holds more than 100 active and pending patents worldwide, and heavily invests in research and development. Our product quality is constantly measured from idea to delivery through a rigorous quality index, so our customers can trust our products' performance.

Everpure® products improve the quality of food and beverages, reduce particles and contaminants, and reduce water-using equipment maintenance costs and downtime. They are tested and certified to the highest standards by NSF International and have earned the prestigious Water Quality Association's Gold Seal validation.

Everpure is a subsidiary of Vivendi Environnement, the leading global provider of commercial, industrial, municipal and residential water and wastewater products and services.
